NRS TECHNOLOGY

NRS™

AP RACING has succeeded in launching a sinter material for brake pads using NRS technology.

NRS™ adds a consistent matrix of raised steel hooks that facilitate a mechanical bond between brake pad back plate and friction materials. A mechanism that never fails.

AP RACING a connu le succès en commercialisant un matériau fritté destiné aux plaquettes de frein utilisant la technologie NRS.

La technologie NRS™ ajoute une matrice de crochets en acier redressés qui facilitent la liaison mécanique entre le plateau de frein pour plaquette de frein et les matériaux de friction. Un mécanisme qui ne s'enraie jamais.

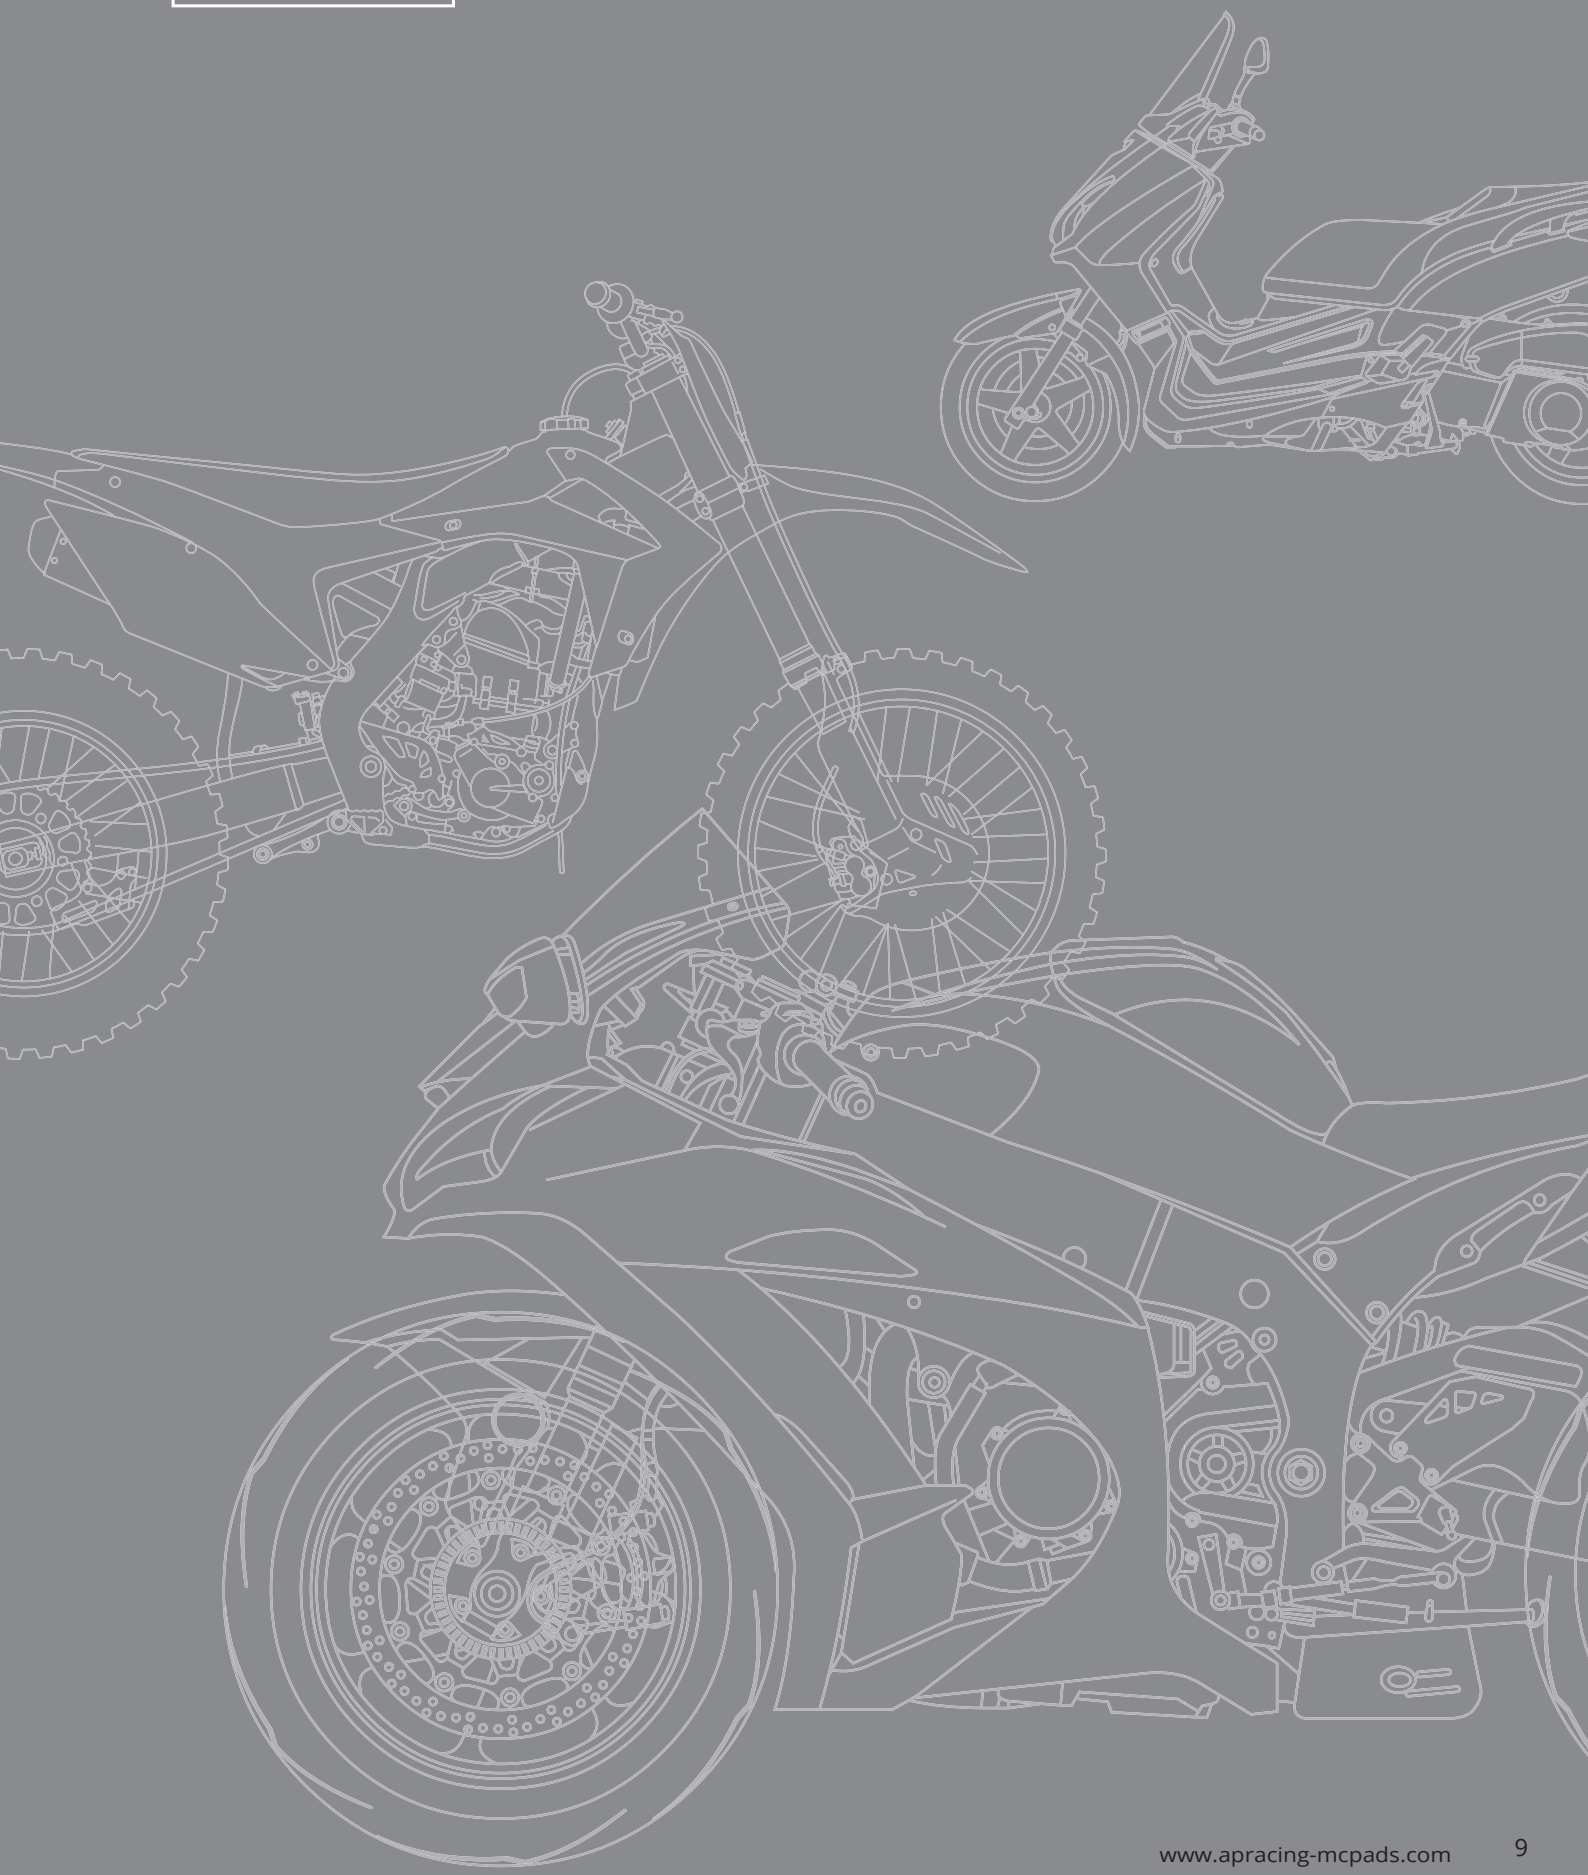

AP RACING ha logrado crear un material sinterizado para pastillas de freno con tecnología NRS.

NRS™ añade una matriz uniforme de ganchos de acero elevada que proporciona una adherencia mecánica entre la placa de soporte de la pastilla de freno y los materiales de fricción. Este mecanismo nunca falla.

AP RACING è riuscita a lanciare un materiale sinterizzato per pastiglie freni con tecnologia NRS.

NRS™ è basato su una specifica matrice di ganci in acciaio sollevati che facilitano il legame meccanico tra la piastra di supporto delle pastiglie freni e i materiali di attrito. Un meccanismo infallibile.
